

Company Bio

R. L. Schreiber, Inc. is a food base, spice and specialty food company founded in 1968 by Raymond L. Schreiber to serve the food service industry. Ray's core business values were to believe in the products you sell and back them up with excellent customer service. This foundation has proven to be a strong and timeless philosophy that continues to be a formula for success regardless of the product or service being provided.

The company started in a small factory in South Florida as a one-man operation. The original product line was limited to a few bases and dry mixes. Ray manufactured the products in the morning and sold them to local restaurants in the afternoon. The company grew rapidly and he soon enlisted the assistance of his children. Today, R. L. Schreiber, Inc. has distributors and loyal clients from coast to coast. Our customers include individual and chain restaurants, cruise lines, cafeterias, schools, prisons, home cooks, caterers, specialty shops and major national retailers.

The company continues to build on Ray's initial dream for the business. R.L. Schreiber, Inc. is a privately held, family owned and operated corporation, offering a wide variety of highly valued products and services to the food service and retail markets. Our product line includes food bases, sauces, gravies, batter mixes, spices, specialty and ethnic items. We offer custom blending and private labeling services. Although the core business of R. L. Schreiber, Inc. is supplying the food service industry through a national network of independent distributors, the company continuously and enthusiastically branches out to meet the changing needs of existing customers and welcome opportunities to serve new markets.
