

Salad Savoy Corporation Introduces

many names, many more uses!

Salad Savoy Corporation is proud to introduce one of our latest items, Tasty Tuscan™ Lacinato Kale. Also known as Dino Kale, Black Kale, Tuscan Kale or even Tuscan Cabbage, Lacinato Kale has been around for centuries. However, with our handpicked and handpacked 12 count bunch pack, Salad Savoy is “re-introducing” this item with our unsurpassed quality stamp.

With a slightly sweeter taste and more delicate texture than the general green kale, Tasty Tuscan will please the most discerning palate. Whether added to soups or sandwiches, salads, or sauteed alongside a center plate protein, there’s always a spot for Tasty Tuscan on the plate!

As with our other items, Lacinato is loaded with vitamins A & C, fiber, and minerals. Once again, the combination of color, taste and nutrition makes for another winner for a great meal. Both your retail and foodservice clientele will be happy you’re carrying this item!

Tasty Tuscan Lacinato is packed 7 per tier,
70 cartons to a pallet.
